About TJM Labs

OUR MISSION & VISION

Our brand stands at the intersection of trust and innovation — blending the warmth of healthcare with the clarity of modern technology. We champion a minimal, approachable aesthetic to reflect our commitment to transparency, ease of use, and seamless integration.

With every product, we aim to elevate care delivery through responsible, intuitive automation that works quietly in the background — so people can stay front and center.

Our Story

BRAND POSITIONING

TJM Labs empowers pharmacy and healthcare decision-makers with intelligent AI automation that streamlines operations and enhances clinical efficiency.

BRAND PERSONALITY

Modern, trustworthy, and quietly intelligent — combining clinical clarity with forward-thinking innovation.

TARGET MARKET

Pharmacy leaders, health system administrators, and companies seeking scalable, low-friction automation solutions.

Our Core Values

Efficiency

At TJM Labs, we prioritize seamless, AI-powered automation that reduces operational complexity, enabling healthcare professionals to focus on what matters most — patient care.

Integrity

We operate with transparency, accountability, and clinical responsibility, building solutions that healthcare leaders can trust.

Reliability

Our technology is built to perform under pressure — consistent, scalable, and ready to support critical decisions at every step.

Excellence

We strive for the highest level of innovation, continuously refining our solutions to meet the evolving needs of healthcare, and setting new benchmarks for automation in the industry.

Our Design Toolkit

VISUAL ELEMENTS

Important Reminders

BE COMMITTED TO THE RULES.

DO NOT change the color.
Use colors in the palette.

DO NOT change the
proportions of the logo

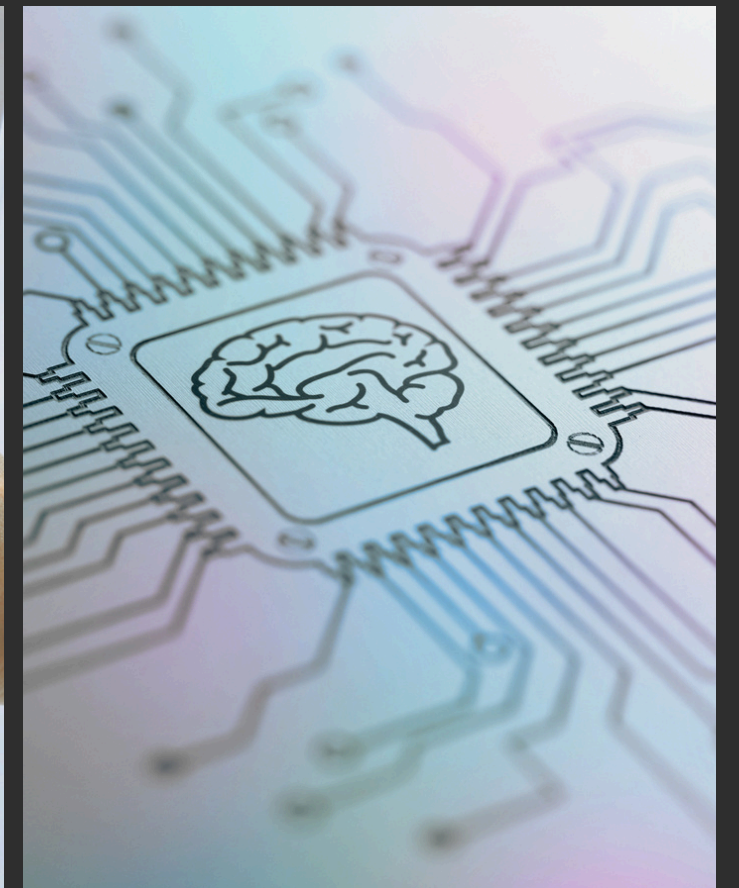

DO NOT add shadow
or any effects.

Our Logo

VISION AND INSPIRATION

The TJM Labs logo combines a universal symbol of care — the cross — with an embedded circuit, representing the fusion of healthcare and intelligent automation. It reflects our vision to build AI solutions that operate with precision, reliability, and empathy, enhancing care through technology that supports, not replaces, the human touch.

Logo on Light Background

Our Color Palette

Hex Values

Beige adds warmth, simplicity, and trust which is essential in healthcare. Purple represents innovation, intelligence, and creativity. Together the goal is to create a balance between clinical professionalism and tech modernity.

Typography Rules

HOW WE PRESENT OURSELVES

We pair Inter for its modern clarity with DM Serif Display for a touch of elegance and trust. Together, they reflect our balance of technical precision and human-centered design in healthcare automation.
